Lotus Europa - Colin Chapman's mid-engined masterpiece Matthew Vale 2022-04-13 The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

The MGA John Price Williams 2001-12-01 The definitive history of the MGA, the first British sportscar to sell more than 100,000 units and be capable of topping 100mph. Includes Le Mans prototypes, the coupe, Twin Cam, 1600 and 1600 MkII models; competition history; 'secret MGAs'; the USA success story; restoration notes, and much more.

Triumph Stag Matthew Vale 2014-05-31 The Triumph Stag was a two-door, four-seat, luxury touring car, designed to be Triumph's flagship model for the 1970s. Styled by prolific designer Giovanni Michelotti, and engineered by Harry Webster and Spen King, the Stag had no direct competitors throughout its production life and was the blueprint for the many four-seat convertibles on the market today. It was in production from 1970 through to 1977, but suffered from a lack of development and gained a reputation for engine problems caused by poor cooling. Triumph Stag - An Enthusiast's Guide explores the history, design and development of the car, taking a special look at the Stag's unique Triumph V8 engine - and how Stag owners today have largely solved the cooling problems. It also covers owners' experiences, specialist modifications and improvements, and the car clubs that help the Stag remain one of the most popular classic cars in the UK. Superbly illustrated with 121 colour photographs.

MG/MGA Roy Crosier 2013-08-01 Judged by many to be the most attractive MG ever produced, the MGA is not only good-looking, but also fun to drive, coping very well with modern traffic demands. In this book you will find advice on choosing the right model, and discussion about potential ownership costs. Practicality and comfort are considered, allowing you to assess suitability for touring, and issues of legality, originality and roadworthiness are also raised. This is a must-buy for anyone thinking of purchasing an MGA.

Auto Racing Comes of Age Robert Dick 2013-05-03 The first quarter of the 20th century was a time of dramatic change in auto racing, marked by the move from the horseless carriage to the supercharged Grand Prix racer, from the gentleman driver to the well-publicized professional, and from the dusty road course to the autodrome. This history of the evolution of European and American auto racing from 1900 to 1925 examines transatlantic influences, early dirt track racing, and the birth of the twin-cam engine and the straight-eight. It also explores the origins of the Bennett and Vanderbilt races, the early career of "America's Speed King" Barney Oldfield, the rise of the speedway specials from Marmon, Mercer, Stutz and Duesenberg, and developments from Peugeot, Delage, Ballot, Fiat, and Bugatti. This informative work provides welcome insight into a defining period in motorsports.

Filled with history, production, evolution and motorsport data. Foreword by Dante Giacosa.

Lotus Europa Matthew Vale 2018-09-24 □The Essential Guide to buying the Lotus Europa of your dreams, this book will guide you through all you need to know. Originally intended to be a cheap and basic Lotus Seven replacement, during its development the Lotus Europa morphed into a miniature supercar, described by Colin Chapman as a "working man's GT40," which sat alongside the Elan in the Lotus line-up. Its mid engine configuration gave it exceptional balance, and its handling and roadholding were second to none. Initially produced for export to Europe in late 1966, the Renault-powered car evolved into the Series 2 in 1968 when it was released to the UK and US markets, and, in its final iteration, gained the Lotus' own Twin Cam engine in 1971. Production ended in 1975 with around 9200 cars completed. This book has been written to provide the prospective owner with all the information they need to establish if the car is for them, and what to look for when viewing an example. All aspects of the cars are examined, including paperwork, mechanical issues, bodywork and interior with many photos of example cars to assist in the assessment of an individual car, and understand the implications of many of the common problems that a car can exhibit. The author is a Lotus enthusiast, and has been working on and

writing about classic Lotuses for a number of years.
