Korea, Are You at Peace? J. A. V. Simson 2013-08-12 Is there hope for peace on the Korean peninsula? These deeply personal stories of two Western women reveal the almost unimaginable transformation of Korea from a culturally and politically united peninsula at the end of the nineteenth century into today's dangerously divided land. These two women's experiences bracket the twentieth century, a dark time in Korean history, when the peninsula was occupied by Japan, divided into North and South, and wracked by internal war—becoming an unwilling pawn of Cold-War superpowers. Despite everything, South Korea has emerged as an international economic success story, whereas North Korea has become a totalitarian ideological nightmare in which leaders spew the rhetoric of aggression and develop nuclear weapons. What would it take to heal this political schizophrenia that endangers our entire world?

A History of Korea Jinwung Kim 2012 Contemporary North and South Korea are nations of radical contrasts: one a bellicose totalitarian state with a failing economy; the other a peaceful democracy with a strong economy. Yet their people share a common history that extends back more than 3,000 years. In this comprehensive new history of Korea from the prehistoric era to the present day, Jinwung Kim recounts the rich and fascinating story of the political, social, cultural, economic, and diplomatic developments in Korea's long march to the present. He provides a detailed account of the origins of the Korean people and language and the founding of the first walled-town states, along with the advanced civilization that existed in the ancient land of "Unified Silla." Clarifying the often complex history of the Three Kingdoms Period, Kim chronicles the five-century long history of the Choson dynasty, which left a deep impression on Korean culture. From the beginning, China has loomed large in the history of Korea, from the earliest times when the tribes that would eventually make up the Korean nation roamed the vast plains of Manchuria and against whom Korea would soon define itself. Japan, too, has played an important role in Korean history, particularly in the 20th century. Kim tells this story as well, including the conflicts that led to the current divided state. The first detailed overview of Korean history in nearly a quarter century, this volume will enlighten a new generation of students eager to understand this contested region of Asia.

The New Koreans Michael Breen 2017-04-06 'As good a guide to a fascinating country in transformation as you will get.' Management Today In the course of a couple of generations, South Koreans took themselves out of the paddy fields and into Silicon Valley, establishing themselves as a democracy alongside the advanced countries of the world. Yet for all their ambition and achievement, the new Koreans are a curiously self-deprecating people. Theirs is a land with a rich and complex past, certain aspects of which they would prefer to forget as they focus on the future. Having lived and worked in South Korea for many years, Michael Breen considers what drives the nation today, and where it is heading. Through insightful anecdotes and observations, he provides a compelling portrait of Asia's most contradictory and polarized country. South Koreans are motivated by defiance, Breen argues: defiance of their antagonistic neighbour, North Korea, of their own history and of international opinion. Here is an overlooked nation with, great drive, determined to succeed on its own terms.

Global Expectations for Korean Unification Kyuryoon Kim et al. 2014-12-31 The current research aims to provide analytical understandings on the costs and benefits of Korean unification from political, social, and economic aspects. Upon the two years of earlier works, we constructed an analytical model encompassing both spatial and temporal dimensions of the unification process, and built comprehensive architecture, 'the Guiding Type of Unification.' Based on this model, we have broadened the scope of the research by collecting diverse perspectives from the worldwide experts of the leading countries. We expect to observe the global trends of world governance. Indeed, the increasing importance of Group of Twenty (G20) countries in managing global problems reflects both political and social aspects of the changes occurring in global governance. Another reason for this would be South Korea's diversified international relations in the recent years. Hence, it seems necessary to take a closer look on the international dimensions of Korean unification. In this vein, we requested thirteen experts of the leading countries to express their opinions on Korean unification. In order to collect international perspectives in a coordinated manner, scholars were provided with a guideline to include their perspectives on the expected effects of Korean Unification and the potential roles of their countries during and after the process. Participants were also asked to present candid implications for Korean unification. Argentina, whose food supply is abundant, laid stress on providing assistance in terms of food security during the unification. Australia, who has special concerns in Asian security, suggested a comprehensive support not only as a mediator but also as one of the U.S. alliance. Due to remote distance to Asia, Brazil is relatively less affected by the unification. Brazil, however, expressed that it has a keen interest in transmission of its experience regarding nuclear issues with Argentina. Similar to Brazil's stance, the effects of the unification influence is indirect to Canada. Nevertheless, Canada could play a role in providing humanitarian assistance, and could be a potential destination for North Korean refugee resettlement. France, one of the most influential members in the European Union and the United Nations, made a suggestion to promote institution building in East Asia that can promote stability in the region. Germany, the only country who had experienced unification, presented its interest in participating actively in the process of Korean unification through public and private sectors. India assumed that the unification of Korea leads to the denuclearization of the peninsula, and would see this as a positive sign for stability of the region, since it would limit or end North Korea's nuclear weapon transmits with Pakistan. Indonesia could contribute to regional peace and stability through ASEAN and its extensions as South Korea can call upon Indonesia to engage in the peace process. Italy, who especially pointed out the role of European Union as a whole, is well-poised to contribute to economic and social development with North Korea through technical assistance. Mexico can, and expressed its willingness to play an active role in the unification process through international organizations. South Africa, who had been successful in national reconciliation and denuclearization, is very likely to provide its experience and can be a strong voice for the NPT and arms control in the international society. Advocating South Korea's policy in Korean unification, Turkey explicitly mentioned that it will side with Seoul if there is a possible conflict in the peninsula. The author emphasized that the international community must be well-informed on how Korean unification will take place. Last but not least, the United Kingdom author suggested that Koreans will have to resolve emotional conflicts for reconciliation. Considering how both Koreas have dealt educational matters concerning the division of the peninsula, this may face a major challenge in the future generation. Thirteen countries' diversely manifested positions on the unifying process are indicative of perceptual change that the issue of Korean unification is no longer a regional issue, but an international one, in which multiple actors have their own stakes within. Upon the previously suggested implications, we categorized the countries into three groups: bystanders, supporters, and interveners. This categorization reflects the assertiveness of each country, or coercive level of each country's assistance instrumented towards the two Koreas during the unifying process. In the conclusion, based on our final analysis, we provided recommendations for the policy makers. First, diversified diplomacy creates an amicable international environment for unification policies beyond the power politics of the Four Powers. Second, activation of leading countries' roles is strategically advantageous to activate the meaningful roles of these leading countries to minimize the Four Powers' concerns. Third, emphasizing the formation of multilateral system would provide leading countries with an additional motivation to actively participate in the unification process. Furthermore, multilateral efforts to achieve Korean unification are also expected to contribute to the furtherance of democratic elements in the dynamics of international relations as a whole. Fourth, it is now high time for us to conduct more public diplomacy by devising new and creative methodologies. The global research

project of this kind could be one of the most effective public diplomatic tools. Lastly, the unification between two Koreas can no longer be considered as a regional issue within Northeast Asia since others, including the leading countries, conceive their national interests along the process of unification on the Korean peninsula in diverse ways. Overall, thirteen countries' recommendations underline the significance of collective efforts in addressing the unification process and suggest South Korea to learn lessons from the experience that they have undergone in the past. Dubious Gastronomy Robert Ji-Song Ku 2013-12-31 California roll, Chinese take-out, American-made kimchi, dogmeat, monosodium glutamate, SPAM—all are examples of what Robert Ji-Song Ku calls "dubious" foods. Strongly associated with Asian and Asian American gastronomy, they are commonly understood as ersatz, depraved, or simply bad. In *Dubious Gastronomy*, Ku contends that these foods share a spiritual fellowship with Asians in the United States in that the Asian presence, be it culinary or corporeal, is often considered watered-down, counterfeit, or debased manifestations of the "real thing." The American expression of Asianness is defined as doubly inauthentic—as insufficiently Asian and unreliably American when measured against a largely ideological if not entirely political standard of authentic Asia and America. By exploring the other side of what is prescriptively understood as proper Asian gastronomy, Ku suggests that Asian cultural expressions occurring in places such as Los Angeles, Honolulu, New York City, and even Baton Rouge are no less critical to understanding the meaning of Asian food—and, by extension, Asian people—than culinary expressions that took place in Tokyo, Seoul, and Shanghai centuries ago. In critically considering the impure and hybridized with serious and often whimsical intent, *Dubious Gastronomy* argues that while the notion of cultural authenticity is troubled, troubling, and troublesome, the apocryphal is not necessarily a bad thing: The dubious can be and is often quite delicious. *Dubious Gastronomy* overlaps a number of disciplines, including American and Asian American studies, Asian diasporic studies, literary and cultural studies, and the burgeoning field of food studies. More importantly, however, the book fulfills the critical task of amalgamating these areas and putting them in conversation with one another. Written in an engaging and fluid style, it promises to appeal a wide audience of readers who seriously enjoys eating—and reading and thinking about—food.

The Dawn of Modern Korea Andre? Nikolaevich Lan?kov 2007 "The 20th century was a time of great changes for any country, but in Korea these changes were especially dramatic. In 1960, it was one of the world's poorest countries. By 2000 it transformed itself into one of the world's largest economies. This astonishing transformation completely changed Koreans' daily life as well. This book describes how small but essential things have changes over the last century, and how new technology and ideas arrived in Korea for the first time. Within the last century photographs, newspapers, movies, restaurants, electric lights, cars (as well as accidents caused by them), subways, and so many other things appeared in Korea. In this book, the author details how these "modern things" changed the centuries-old ways of Korean life." -- BACK COVER.

5,000 Years of Korean Martial Arts R. Barry Harmon 2008-08 "5000 Years of Korean Martial Art" is a one of a kind history book. No other Korean martial art history book on the market is as complete and in-depth. Citing historical references for support, and featuring many rare pictures and some images that are not available from any other published source. This book attempts to place Korean martial arts in it's proper historical perspective in relationship to Chinese and Japanese martial arts. Both Chinese and Japanese martial arts have well known and documented histories, so much so that they have completely overshadowed Korean martial art history. I have attempted to compensate for that overshadowing by focusing on the successes of the Korean martial arts throughout history. Barry Harmon has a BA degree in "Psychosomatics and Alternative Healing Studies" from San Francisco State University. He has an acupuncture degree from the San Francisco College of Acupuncture and Oriental Medicine. He is certified nationally through the NCCAOM and license to practice acupuncture in Texas. In addition to his academics, he has been training and studying martial arts since 1965 and Kuk Sool Won since 1971. In 2002 KBS (Korean Broadcasting System) featured Master Harmon and his family in an hour long documentary which was aired throughout South Korea. Master Harmon currently holds an 9th degree black belt in Kuk Sool Won and has been featured in numerous martial arts magazines. In 2005 he was chosen by Tae Kwan Do Times magazine as instructor of the year. He has taught martial arts in many countries around the world including South Korea."

My Holiday in North Korea Wendy E. Simmons 2016-05-03 Most people want out of North Korea. Wendy Simmons wanted in. In *My Holiday in North Korea: The Funniest/Worst Place on Earth*, Wendy shares a glimpse of North Korea as it's never been seen before. Even though it's the scariest place on Earth, somehow Wendy forgot to check her sense of humor at the border. But Wendy's initial amusement and bewilderment soon turned to frustration and growing paranoia. Before long, she learned the essential conundrum of tourism in North Korea: Travel is truly a love affair. But, just like love, it's a two-way street. And North Korea deprives you of all this. They want you to fall in love with the singular vision of the country they're willing to show you and nothing more. Through poignant, laugh-out-loud essays and 92 never-before-published color photographs of North Korea, Wendy chronicles one of the strangest vacations ever. Along the way, she bares all while undergoing an inner journey as convoluted as the country itself.

TRAVELS IN THE LAND OF JUCHE KOREA ,1992-2017. -Personal recollections of visiting the Democratic People's Republic of Korea -travel notes and a bit of autobiographical stuff Dermot Hudson 2018-11-14 This is an account of my past visit to the Democratic People's Republic of Korea, the land of Juche, from 1992 to 2017. It is my hope that this book will contribute to a greater understanding of the Democratic People's Republic of Korea and the Juche Idea, and, also an understanding of the work of the Juche Idea Study Group of England, the Association for the Study of Songun Politics and the Korean Friendship Association. Moreover I hope that my accounts of visiting the DPRK will demolish some of the horrendous rubbish written by reactionary right wing hack writers about People's Korea. I have tried to write the book in a frank and candid manner but also in a lively and amusing style.

North Korea through the Looking Glass Kongdan Oh 2004-05-13 Fifty-five years after its founding at the dawn of the cold war, North Korea remains a land of illusions. Isolated and anachronistic, the country and its culture seem to be dominated exclusively by the official

ideology of Juche, which emphasizes national self-reliance, independence, and worship of the supreme leader, General Kim Jong Il. Yet this socialist utopian ideal is pursued with the calculations of international power politics. Kim has transformed North Korea into a militarized state, whose nuclear weapons, ballistic missiles, and continued threat to South Korea have raised alarm worldwide. This paradoxical combination of cultural isolation and military-first policy has left the North Korean people woefully deprived of the opportunity to advance socially and politically. The socialist economy, guided by political principles and bereft of international support, has collapsed. Thousands, perhaps millions, have died of starvation. Foreign trade has declined and the country's gross domestic product has recorded negative growth every year for a decade. Yet rather than initiate the sort of market reforms that were implemented by other communist governments, North Korean leaders have reverted to the economic policies of the 1950s: mass mobilization, concentration on heavy industry, and increased ideological indoctrination. Although members of the political elite in Pyongyang are acutely aware of their nation's domestic and foreign problems, they are plagued by fear and policy paralysis. North Korea Through the Looking Glass sheds new light on this remote and peculiar country. Drawing on more than ten years of research—including interviews with two dozen North Koreans who made the painful decision to defect from their homeland—Kongdan Oh and Ralph C. Hassig explore what the leadership and the masses believe about their current predicament. Through dual themes of persistence and illusion, they explore North Korea's stubborn adherence to policies that have failed to serve the welfare of the people and, consequently, threaten the future of the regime. Featuring twenty-nine rare and candid photos taken from within the closely guarded country, North Korea Through the Looking Glass illuminates the human society of a country too often mischaracterized for its drab uniformity—not a "state," but a community of twenty million individuals who have, through no fault of their own, fallen on exceedingly hard times.

Three Tigers, One Mountain Michael Booth 2020-01-16 'The next Bill Bryson' New York Times Two tigers cannot share the same mountain - Chinese proverb Despite geographical proximity, cultural similarities, and shared status as highly powerful nations, China, Korea and Japan love to hate each other. Why? In search of an answer, Michael Booth journeys across East Asia to explore the mutual animosity that frequently threatens to draw the world into all-out war. From misjudged cake decorations to electoral meddling, contradictory origin myths to territorial disputes, this deeply researched and hugely entertaining book shows that no conflict is too small to keep the fires of neighbourly hostility burning. A History of Korea Michael J. Seth 2010-10-16 In this comprehensive yet compact book, Michael J. Seth surveys Korean history from Neolithic times to the present. He explores the origins and development of Korean society, politics, and its still little-known cultural heritage from their inception to the two Korean states of today. Telling the remarkable story of the origins and evolution of a society that borrowed and adopted from abroad, Seth describes how various tribal peoples in the peninsula came together to form one of the world's most distinctive communities. He shows how this ancient, culturally and ethnically homogeneous society was wrenched into the world of late-nineteenth-century imperialism, fell victim to Japanese expansionism, and then became arbitrarily divided into two opposed halves, North and South, after World War II. Tracing the past seven decades, the book explains how the two Koreas, with their deeply different political and social systems and geopolitical orientations, evolved into sharply contrasting societies. South Korea, after an unpromising start, became one of the few postcolonial developing states to enter the ranks of the first world, with a globally competitive economy, a democratic political system, and a cosmopolitan and dynamic culture. North Korea, by contrast, became one of the world's most totalitarian and isolated societies, a nuclear power with an impoverished and famine-stricken population. Seth describes and analyzes the radically different and historically unprecedented trajectories of the two Koreas, formerly one tight-knit society. Throughout, he adds a rich dimension by placing Korean history into broader global perspective and by including primary readings from each era. All readers looking for a balanced, knowledgeable history will be richly rewarded with this clear and concise book.

Understanding the Korean War Arthur H. Mitchell 2013-07-30 This is a study of the Korean War of 1950-1953 from the inside—the nuts and bolts of armed conflict. The perspective is American, with the principal focus on the relationships of the people involved: North and South Koreans, the Chinese and Soviets, and how the U.S. and its allies engaged with them all. The lives of ordinary soldiers are examined—U.S. forces, with attention paid to the other side as well. The book examines such important aspects of military operations as supplies, equipment and weapons, tactics and strategy, intelligence, and psychological warfare, as well as the effective elimination of racial segregation in the U.S. military. Also studied is the vexing matter of prisoners of war, on both sides. Finally, there is an effort to fit Korea into the generalities of American military experience in Asia, from the war with Japan to Vietnam.

Made in Korea Richard M. Steers 2013-08-21 American business folklore is awash with the adventures of successful entrepreneurs. Still, most of these stories are about Americans, neglecting important and courageous entrepreneurs from other countries. Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world's largest and most successful building empires - Hyundai - through a combination of creative thinking, tenacity, timing, political skills, and a business strategy that few competitors ever understood. Chung entered the shipbuilding business with no experience and went on to create the world's largest shipyard. He began making automobiles when foreign experts unanimously predicted he would fail, and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEOs of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity and a capacity to never give up - this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed, regardless of the obstacles, and he worked tirelessly to instil this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, Made in Korea takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs.
