**Categories for the Working Mathematician** Saunders MacLane 2013-11-11 Category Theory has developed rapidly. This book aims to present those ideas and methods which can now be effectively used by Mathematicians working in a variety of other fields of Mathematical research. This occurs at several levels. On the first level, categories provide a convenient conceptual language, based on the notions of category, functor, natural transformation, contravariance, and functor category. These notions are presented, with appropriate examples, in Chapters I and II. Next come the fundamental idea of an adjoint pair of functors. This appears in many substantially equivalent forms: That of universal construction, that of direct and inverse limit, and that of pairs of functors with a natural isomorphism between corresponding sets of arrows. All these forms, with their interrelations, are examined in Chapters III to V. The slogan is "Adjoint functors arise everywhere". Then, generally, the fundamental notion of category theory is that of a monoid - a set with a binary operation of multiplication which is associative and which has a unit; a category itself can be regarded as a sort of general ized monoid. Chapters VI and VII explore this notion and its generalizations. Its close connection to pairs of adjoint functors illuminates the ideas of universal algebra and culminates in Beck's theorem characterizing categories of algebras; on the other hand, categories with a monoidal structure (given by a tensor product) lead

inter alia to the study of more convenient categories of topological spaces.

**Teaching Character Analysis** Jessica A. Jaeger 2009 Research Questions: In what ways will focusing on writing strong assertions about characters using trait words and supporting those assertions with evidence from the text influence students' ability to write a character analysis essay? (1) To what extent will having students generate a class-based list of character trait words engage students in their character analysis writing? (2) How will the process of modeling by collaboratively writing a character analysis essay with students in class influence their writing character analysis essays? Research Activities: Context: This research took place in an eighth-grade English classroom in an agricultural community in northern California. The class was comprised of 21 female students and 10 male students of various ability levels. Eight focus students, 5 female and 3 male, were selected. One of the male students was an EL student, and one of the female students was REEP. Students were chosen from the Advanced to Basic range as determined by the California STAR test. Methods and Data: The intervention had two focuses: developing precise trait vocabulary and developing strong assertions and support for use in a character analysis essay. The entire intervention lasted approximately two months. Throughout the intervention, numerous activities were implemented to teach students trait vocabulary and effective ways to support a thesis statement. These activities included generating a class-based list of character traits, supporting assertions with specific textual evidence, engaging in a debate based on assertions and evidence, creating a rubric for a character analysis essay, discussing a teacher-modeled essay, and writing three separate character analysis essays. Pre- and post-intervention achievement data consisted of students' essay responses to a character analysis prompt in a timed 50-minute period. Essays were analyzed for exactness and accuracy of trait words present in the writing and a well-developed and supported thesis statement. Students were also given self-assessment surveys for pre- and post-intervention attitude data.

Observation data were gathered during and after intervention activities in a teacher research journal. Results: The results of the intervention showed significant student improvement. Between the baseline and outcome achievement data sets, the scores for thesis and support shifted markedly from Below Basic and Basic to Proficient and Advanced. On the baseline data, only fourteen students (46%) in the target class scored Proficient or Advanced, but on the outcome data, twenty-six students (84%) scored in this range. Fourteen of those twenty-six (54%) scored Advanced, meaning that over half of the target class wrote essays containing well-developed thesis statements that were supported by several textual references. From baseline to outcome data, the scores for students' use of trait vocabulary also showed improvement. On the baseline data, no students scored Advanced and only five scored Proficient in the vocabulary category. The rest of the students scored Basic or Below Basic. On the outcome data, however, no students scored Basic or Below Basic, instead scoring Proficient (9 students, 29%) and Advanced (22 students, 71%). The significant majority of the class scored Advanced, meaning they used appropriate vocabulary and described the character they were analyzing through exact and accurate trait words. Students' indication of understanding both character analysis and thesis assertions and support also increased significantly from the baseline to outcome attitude data, as well as student confidence levels for writing a character analysis essay. For baseline data, only 27% of students reported they were "confident" and no students reported "very confident"; for outcome data, 40% of students reported "confident" and an additional 24% reported "very confident." Findings indicate that focused instruction that sequences work on skills over time should be used to improve the use of precise character trait vocabulary and the ability to support strong assertions in character analysis essays. Grade: Eighth Grade. Research Methods: Writing Samples, Writing Assessment, Survey-Attitude, Survey-Concepts, Observation-Field Notes, Student Work. Curriculum Areas: English Language Arts, Writing, Instructional Approaches: Writing-Response to Literature, Writing-Rubrics, Modeling, Writing-Explicit Instruction.

**Where are You Going, where Have You Been?** Joyce Carol Oates 1993 Joyce Carol Oates's prize-winning story "Where Are You Going, Where Have You Been?" takes up troubling subjects that continue to occupy her in her fiction: the romantic longings and limited options of adolescent women; the tensions between mothers and daughters; the sexual victimization of women; and the American obsession with violence. Inspired by a magazine story about a serial killer, its remarkable portrait of the dreamy teenager Connie has made it a feminist classic. Connie's life anticipates the emergence of American society from the social innocence of the fifties into the harsher contemporary realities of war, random violence, and crime. The story was the basis for the movie Smooth Talk, which became the subject of much feminist debate. This casebook includes an introduction by the editor, a chronology of Oates's life, and authoritative text of "Where Are You Going, Where Have You Been?" an essay by Oates on Smooth Talk, the original Life article about the serial killer, ten critical essays (including two about the film), and a bibliography. The contributors are Brenda O. Daly, Christina Marsden Gillis, Don Moser, Tom Quirk, B. Ruby Rich, R.J.R. Rockwood, Larry Rubin, Gretchen Schultz, Marie Mitchell Oleson Urbanski, Joyce M. Wegs, and Joan D. Winslow. Elaine Showalter is Avalon Foundation Professor of Humanities at Princeton University. **Just Kids** Patti Smith 2010-04-20 WINNER OF THE NATIONAL BOOK AWARD It was the summer Coltrane died, the summer of love and riots, and the summer when a chance encounter in Brooklyn led two young people on a path of art, devotion, and initiation. Patti Smith would evolve as a poet and performer, and Robert Mapplethorpe would direct his highly provocative style toward photography. Bound in innocence and enthusiasm, they traversed the city from Coney Island to Forty-Second Street, and eventually to the celebrated round table of Max's Kansas City, where the Andy Warhol contingent held court. In 1969, the pair set up camp at the Hotel Chelsea and soon entered a community of the famous and infamous, the influential artists of the day and the colorful fringe. It was a time of heightened awareness, when the worlds of poetry, rock and roll, art, and sexual politics were colliding and exploding. In this milieu, two kids made a pact to take care of each other. Scraggy, romantic, committed to create, and fueled by their mutual dreams and drives, they would prod and provide for one another during the hungry years. *Just Kids* begins as a love story and ends as an elegy. It serves as a salute to New York City during the late sixties and seventies and to its rich and poor, its hustlers and hellions. A true fable, it is a portrait of two young artists' ascent, a prelude to fame.
